

Mrs. Nancy Reagan

**Mrs. Nancy Reagan
1921-2016**

Mrs. Nancy Reagan, Senator Ted Stevens and Riki Ellison on April 10, 2006.

She brought dignity, grace and class to our Nation

She elevated America to Americans and she elevated America to the world at large

She rose above the pettiness of politics to stand high and apart on principles, character and value

She defined the First Lady of the United States like no other before her nor after her

She had vision, fortitude and intellect in guiding her husband and our nation into greatness

She was the perfect companion, wife and partner for President Ronald Reagan

She led our nation's youth against drugs in the simple but powerful slogan "Just say No"

She is to be revered and honored equally as her husband is and she lays down beside him for lifetimes to come.

God Bless Our First Lady and God be with her and her husband as they rejoin each other in Heaven

Respectfully,

Riki Ellison

Mrs. Nancy Reagan, Lt. Gen. Trey Obering and Riki Ellison at the dedication of the of the Ronald Reagan Missile Defense Test Site on April 10, 2006 at Vandenberg Air Force Base. The Ronald Reagan Memorial was designed and created from a partnership between Mrs. Reagan and MDAA.
