**Reagan Foundation and GE Announce
Scholarship Application Open Date of October 16, 2023
*GE-Reagan Foundation Scholarship Program Set to Top
\$9 Million in Awarded Scholarships***

(SIMI VALLEY, Calif.) The Ronald Reagan Presidential Foundation and Institute, in partnership with GE, are pleased to announce that the 2024 GE-Reagan Foundation Scholarship Program will open for applications on October 16, 2023. This program awards up to \$400,000 in scholarships to deserving high school seniors across the country in 2024.

Now in its 14th year, the program has awarded \$8.62 million to 216 students. Recipients hailing from 42 states and attending more than 120 undergraduate campuses form a diverse network of young leaders attending college, pursuing graduate degrees, and working in careers ranging from medicine, law, education, business, nonprofit, and more around the world.

To qualify, students must:

- Demonstrate the attributes of leadership, integrity, drive, and citizenship within their communities, schools, and workplaces
- Display strong academic performance
- Be a citizen of the United States of America
- Be a current high school senior attending school within the United States and graduating in the current academic year
- Plan to enroll in a full-time undergraduate course of study at an accredited four-year college or university in the United States for the entire upcoming academic school year

This year's recipients will be recognized at an exclusive Scholars Retreat at the Reagan Library where they will participate in leadership development activities, a community service project, and a formal awards program.

“Through the GE-Reagan Presidential Foundation Scholarship Program, President Reagan’s enduring legacy of leadership, drive, integrity, and citizenship is showcased among the next generation of leaders,” says Janet Tran, acting Chief Learning Officer at the Ronald Reagan Presidential Foundation and Institute. “We are eager to celebrate those stand-out students in the Class of 2024 who are already leading, serving and pursuing a life of purpose and significance, both individually and for their communities.”

“As the network of exceptional GE-Reagan Foundation Scholars grows, we are proud to play a role in deploying some of the most promising young leaders on college campuses across the country,” says Julie Grzeda, Director of Early Career Talent at GE Aerospace. “We are confident that this year’s class of extraordinary young people will be a force for good over the next four years and well into their professional careers.”
